Focus on Per Share Value Creation

LTM FFO⁽¹⁾ Per Share (fully diluted)

Period	YoY Growth
2022	+63%
2023	+40%
2024	+3%
2025 YTD	+19%

Structure Enhances Returns

Deliberate Focus and Structure

Young Portfolio Requires Lower Capex

- Young portfolio has overall capex per unit lower than those of public peers
- High organic NOI growth by containing costs and growth without capex intensive tenant turnover
- Tenant base are typically previous homeowners and better caretakers of units

Favorable Structure Enhances Compounding

- NexLiving corporate structure retains internally generated cash flow source of equity capital for potential acquisitions

Capex Per Unit

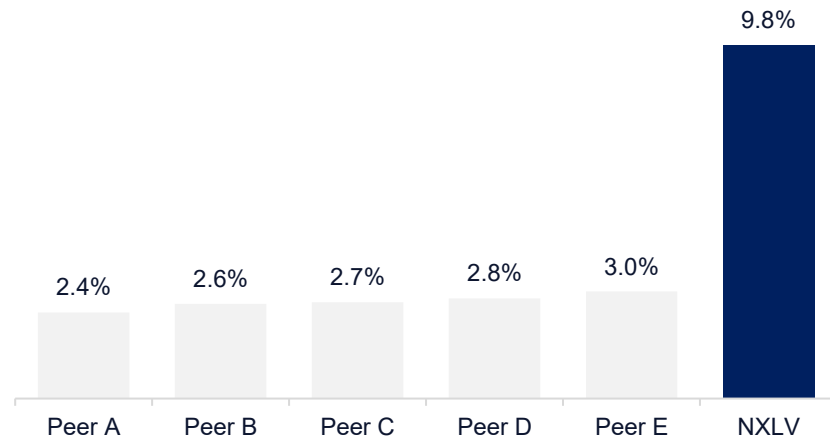

Note: Figures based on 2024 results. Peers include Boardwalk, CAPREIT, InterRent, Killam, and Minto

Interest, Dividends, CapEx as % of EBITDA

Note: Figures based on 2024 results. Peers include Boardwalk, CAPREIT, InterRent, Killam, and Minto

FFO⁽¹⁾ Less Total Capex Yield

Note: Reflects FFO per share and total capex (maintenance + growth) for 2024. NexLiving figures PF for Devcore acquisition.

Pleasant - Cash Flow Summary

Year	Cash Flow	Notes
2020	(\$1.0MM)	\$1.0MM equity issued to vendor + fees
2021	+0.1MM	Free Cash Flow (FCF) ⁽¹⁾
2022	+0.1MM	FCF
2023	+0.8MM	Mortgage refi proceeds & FCF
2024	+2.5MM	Sale proceeds & FCF
Total	+3.2MM	Realized 34%+ IRR

McLaughlin - Cash Flow Summary

Year	Cash Flow	Notes
2020	(\$3.7MM)	\$2.5MM cash + \$1.2MM equity to vendor
2021	+0.2MM	FCF
2022	+4.2MM	Mortgage refi proceeds & FCF
2023	+0.2MM	FCF
2024	+4.9MM	Sale proceeds & FCF
Total	+9.5MM	Realized 40%+ IRR

Recent dispositions highlights NexLiving’s ability to increase value on individual properties and realize embedded value within broader property portfolio.

Debt Maturity Profile

Note: As of September 30, 2025

Additional Mortgage Portfolio Information

- ~96% of mortgage book is CMHC-insured
- NexLiving has no remaining maturities in 2025

Non-IFRS Financial Measures

This presentation contains several non-IFRS financial measures and ratios that management believes provide relevant supplementary information to both management and investors in measuring the operating and financial performance of the Company. These measures are commonly used by entities in the real estate industry, however, they do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar metrics presented by other publicly traded entities. These metrics should be considered as supplemental in nature and not as a substitute for related financial information prepared in accordance with IFRS.

FFO is defined as net income adjusted for fair value gains (losses), deferred tax expense and accretion expense. The Company's method of calculating FFO may differ from other issuers' methods and, accordingly, these measures may not be comparable to measures used by other issuers

FFO per share – diluted is defined as FFO for the applicable period divided by the diluted weighted average shares outstanding during the period.

FFO payout ratio is calculated by dividing the dividend paid per share by FFO for the corresponding period.

Net Debt to GBV is defined as the ratio of outstanding mortgages payable to the fair value of the Company's investment properties, net of the current cash balance. The ratio has been included for the purpose of improving the understanding of the Company's current financial position.

Same Property results are used to evaluate performance of investment properties owned and operated by the Company continuously since January 1, 2024. Same property results are supplementary financial measures as defined in National Instrument 52-112. The Company believes same property results represent a meaningful measure of operating and financial performance as it allows the Company to gauge the leasing and operating performance of its portfolio on a consistent basis period-over-period. Same property results exclude the impact from acquisitions and dispositions completed during the comparative periods. As at Sep 30, 2025, the Company's same property portfolio comprised of 1,006 units, representing 51% of the fair value of the Company's investment property portfolio

Free Cash Flow is defined as net operating income less interest expense less cash general & administrative expenses less maintenance capital expenditures.
