2023	+40%
2024	+3%
2025	+29%
Q2 2026	+25%

1 - Refer to slide 13 for non-IFRS measures

Young Portfolio Requires Lower Capex

- Young portfolio has overall capex per unit lower than those of public peers
- High organic NOI growth by containing costs and growth without capex intensive tenant turnover
- Tenant base are typically previous homeowners and better caretakers of units

Capital Structure Enhances Compounding

- NexLiving corporate structure retains internally generated cash flow as a source of equity capital for potential acquisitions

Capital Expenditures Per Unit

Interest, Dividends, Capex as % of EBITDA

Note: Figures based on 2025 results. Peers include Boardwalk, InterRent, Minto, Killam, CAPREIT, Northview

3-year Peer Comparison

Cash Profit Margin – 2022-2026

FFO Per Share Growth – 2022-2026

Same Property NOI Growth – 2022-2026

Free Cash Flow Yield – 2026E

Note: Peers include Boardwalk, InterRent, Minto, Killam, CAPREIT, Northview. Cash Profit Margin is defined as NOI less Capex. Figures reflect 2022–Q2 2026 results; for peers acquired prior to Q2 reporting, data is as of Q1 2026.

Capital Recycling Summary

2024 Dispositions – McLaughlin & Pleasant

Year	Cash Flow	Notes
2020	(\$4.7MM)	\$2.5MM cash + \$2.2MM equity issued to vendor + fees
2021	+0.3MM	Free Cash Flow (FCF) ⁽¹⁾
2022	+4.3MM	McLaughlin mortgage refi proceeds + FCF
2023	+1.0MM	Pleasant mortgage refi proceeds + FCF
2024	+7.4MM	Sale of both properties + FCF
Total	+13.0MM	Realized 40% IRR

2025 Dispositions – Ch Montreal & Futaie

Year	Cash Flow	Notes
2024	(\$0.7MM)	\$0.7MM equity issued to vendor
2024	(\$2.3MM)	Repayment of mortgage debt with cash
2025	+0.2MM	Free Cash Flow (FCF) ⁽¹⁾
2025	+2.0MM	Sale of Ch Montreal property
2026	+2.9MM	Sale of Futaie property
Total	+5.1MM	Realized 31% IRR

2025 dispositions were completed at a 3.10% blended cap rate, which highlights NexLiving's ability to opportunistically recycle capital at attractive returns.

1 - Refer to slide 13 for non-IFRS measures

Non-IFRS Financial Measures

This presentation contains several non-IFRS financial measures and ratios that management believes provide relevant supplementary information to both management and investors in measuring the operating and financial performance of the Company. These measures are commonly used by entities in the real estate industry, however, they do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar metrics presented by other publicly traded entities. These metrics should be considered as supplemental in nature and not as a substitute for related financial information prepared in accordance with IFRS.

FFO is defined as net income adjusted for fair value gains (losses), deferred tax expense and accretion expense. The Company's method of calculating FFO may differ from other issuers' methods and, accordingly, these measures may not be comparable to measures used by other issuers.

FFO per share – diluted is defined as FFO for the applicable period divided by the diluted weighted average shares outstanding during the period.

FFO payout ratio is calculated by dividing the dividend paid per share by FFO for the corresponding period.

Net Debt to GBV is defined as the ratio of outstanding mortgages payable to the fair value of the Company's investment properties, net of the current cash balance. The ratio has been included for the purpose of improving the understanding of the Company's current financial position.

Same Property results are used to evaluate performance of investment properties owned and operated by the Company continuously since January 1, 2025. Same property results are supplementary financial measures as defined in National Instrument 52-112. The Company believes same property results represent a meaningful measure of operating and financial performance as it allows the Company to gauge the leasing and operating performance of its portfolio on a consistent basis period-over-period. Same property results exclude the impact from acquisitions and dispositions completed during the comparative periods. As at June 30, 2026, the Company's same property portfolio comprised of 1,973 suites, representing 100% of the fair value of the Company's investment property portfolio.

Free Cash Flow is defined as net operating income less interest expense less cash general & administrative expenses less maintenance capital expenditures.
